

THE GATE TO WISDOM

Cosmological Insights and the
Continuity of Divine Revelation

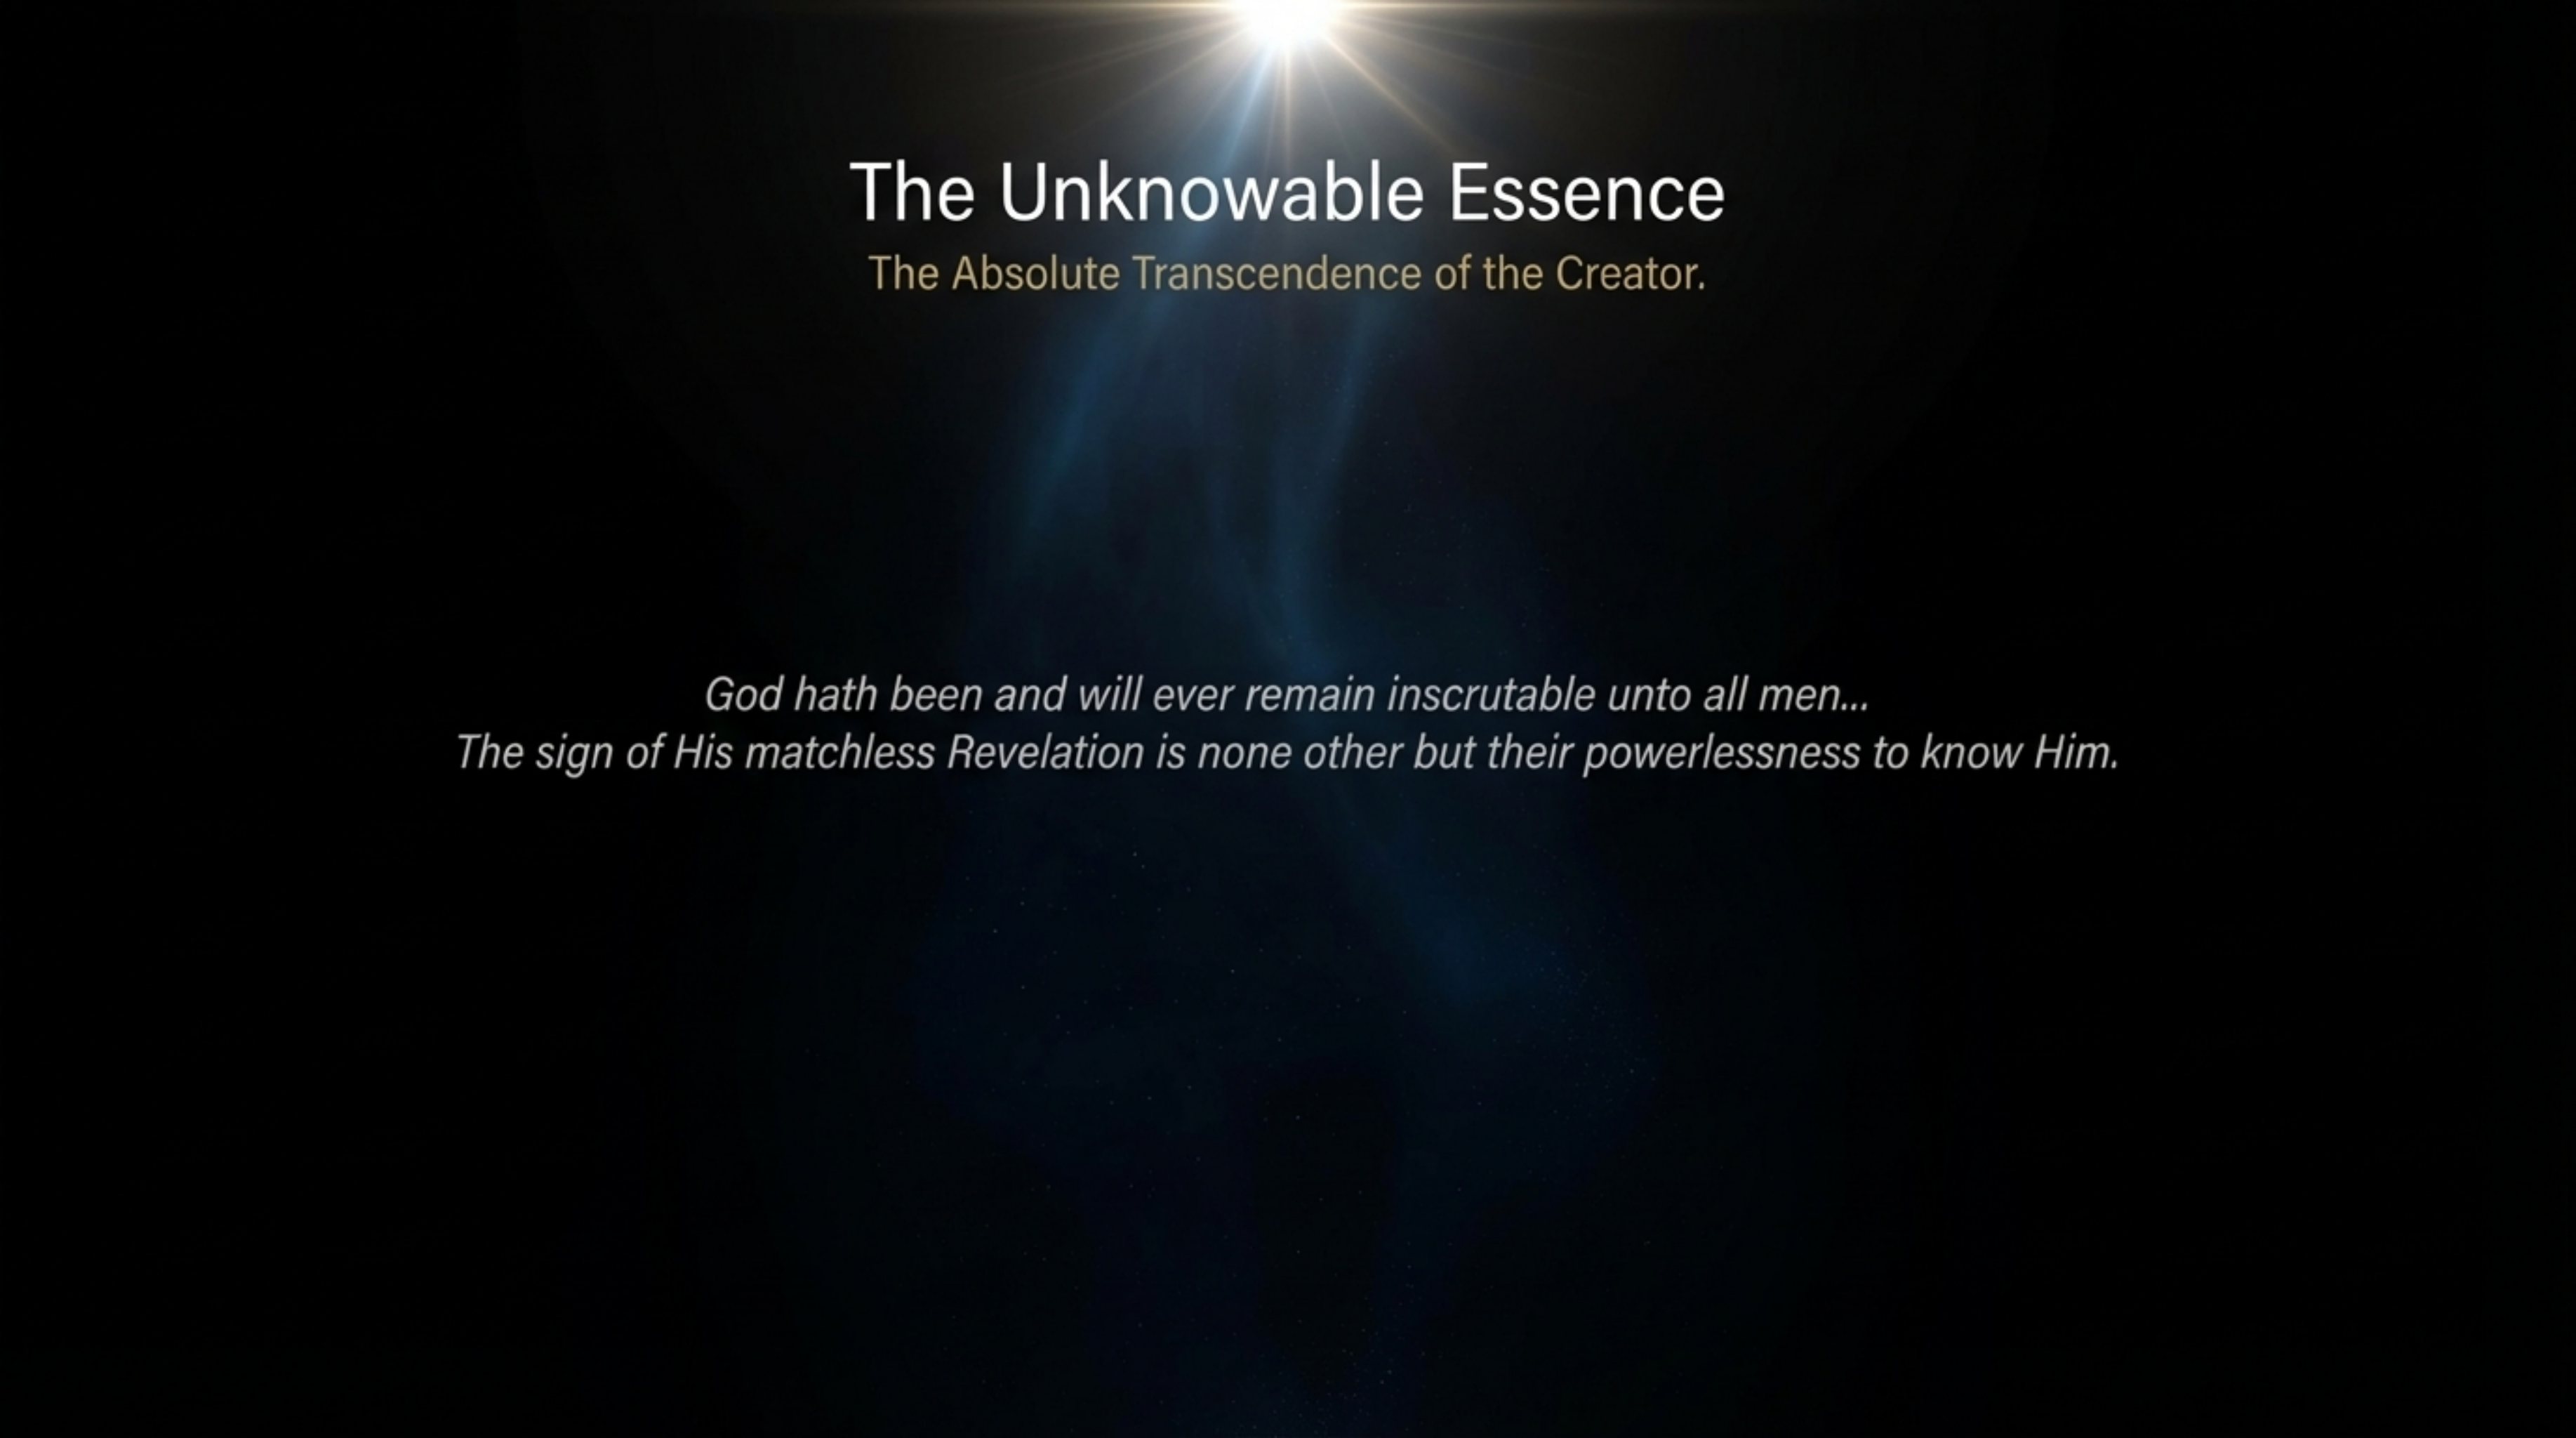

ACUITY

A VISIONARY CONTEXT

In 1844, a visionary known as the Báb (The Gate) proclaimed a message that shook the foundations of empires. His writings offer a profound, cosmological framework of existence, where human purpose is inexorably linked to an infinite continuum of divine light.

Curated by Ethan James Farrell / Acuity Institute

The Unknowable Essence

The Absolute Transcendence of the Creator.

*God hath been and will ever remain inscrutable unto all men...
The sign of His matchless Revelation is none other but their powerlessness to know Him.*

The Optics of Revelation: The Sun and the Mirrors

The Light Source:
The Primal Will

The Perfect Mirror:
The Manifestation
(The Prophet)

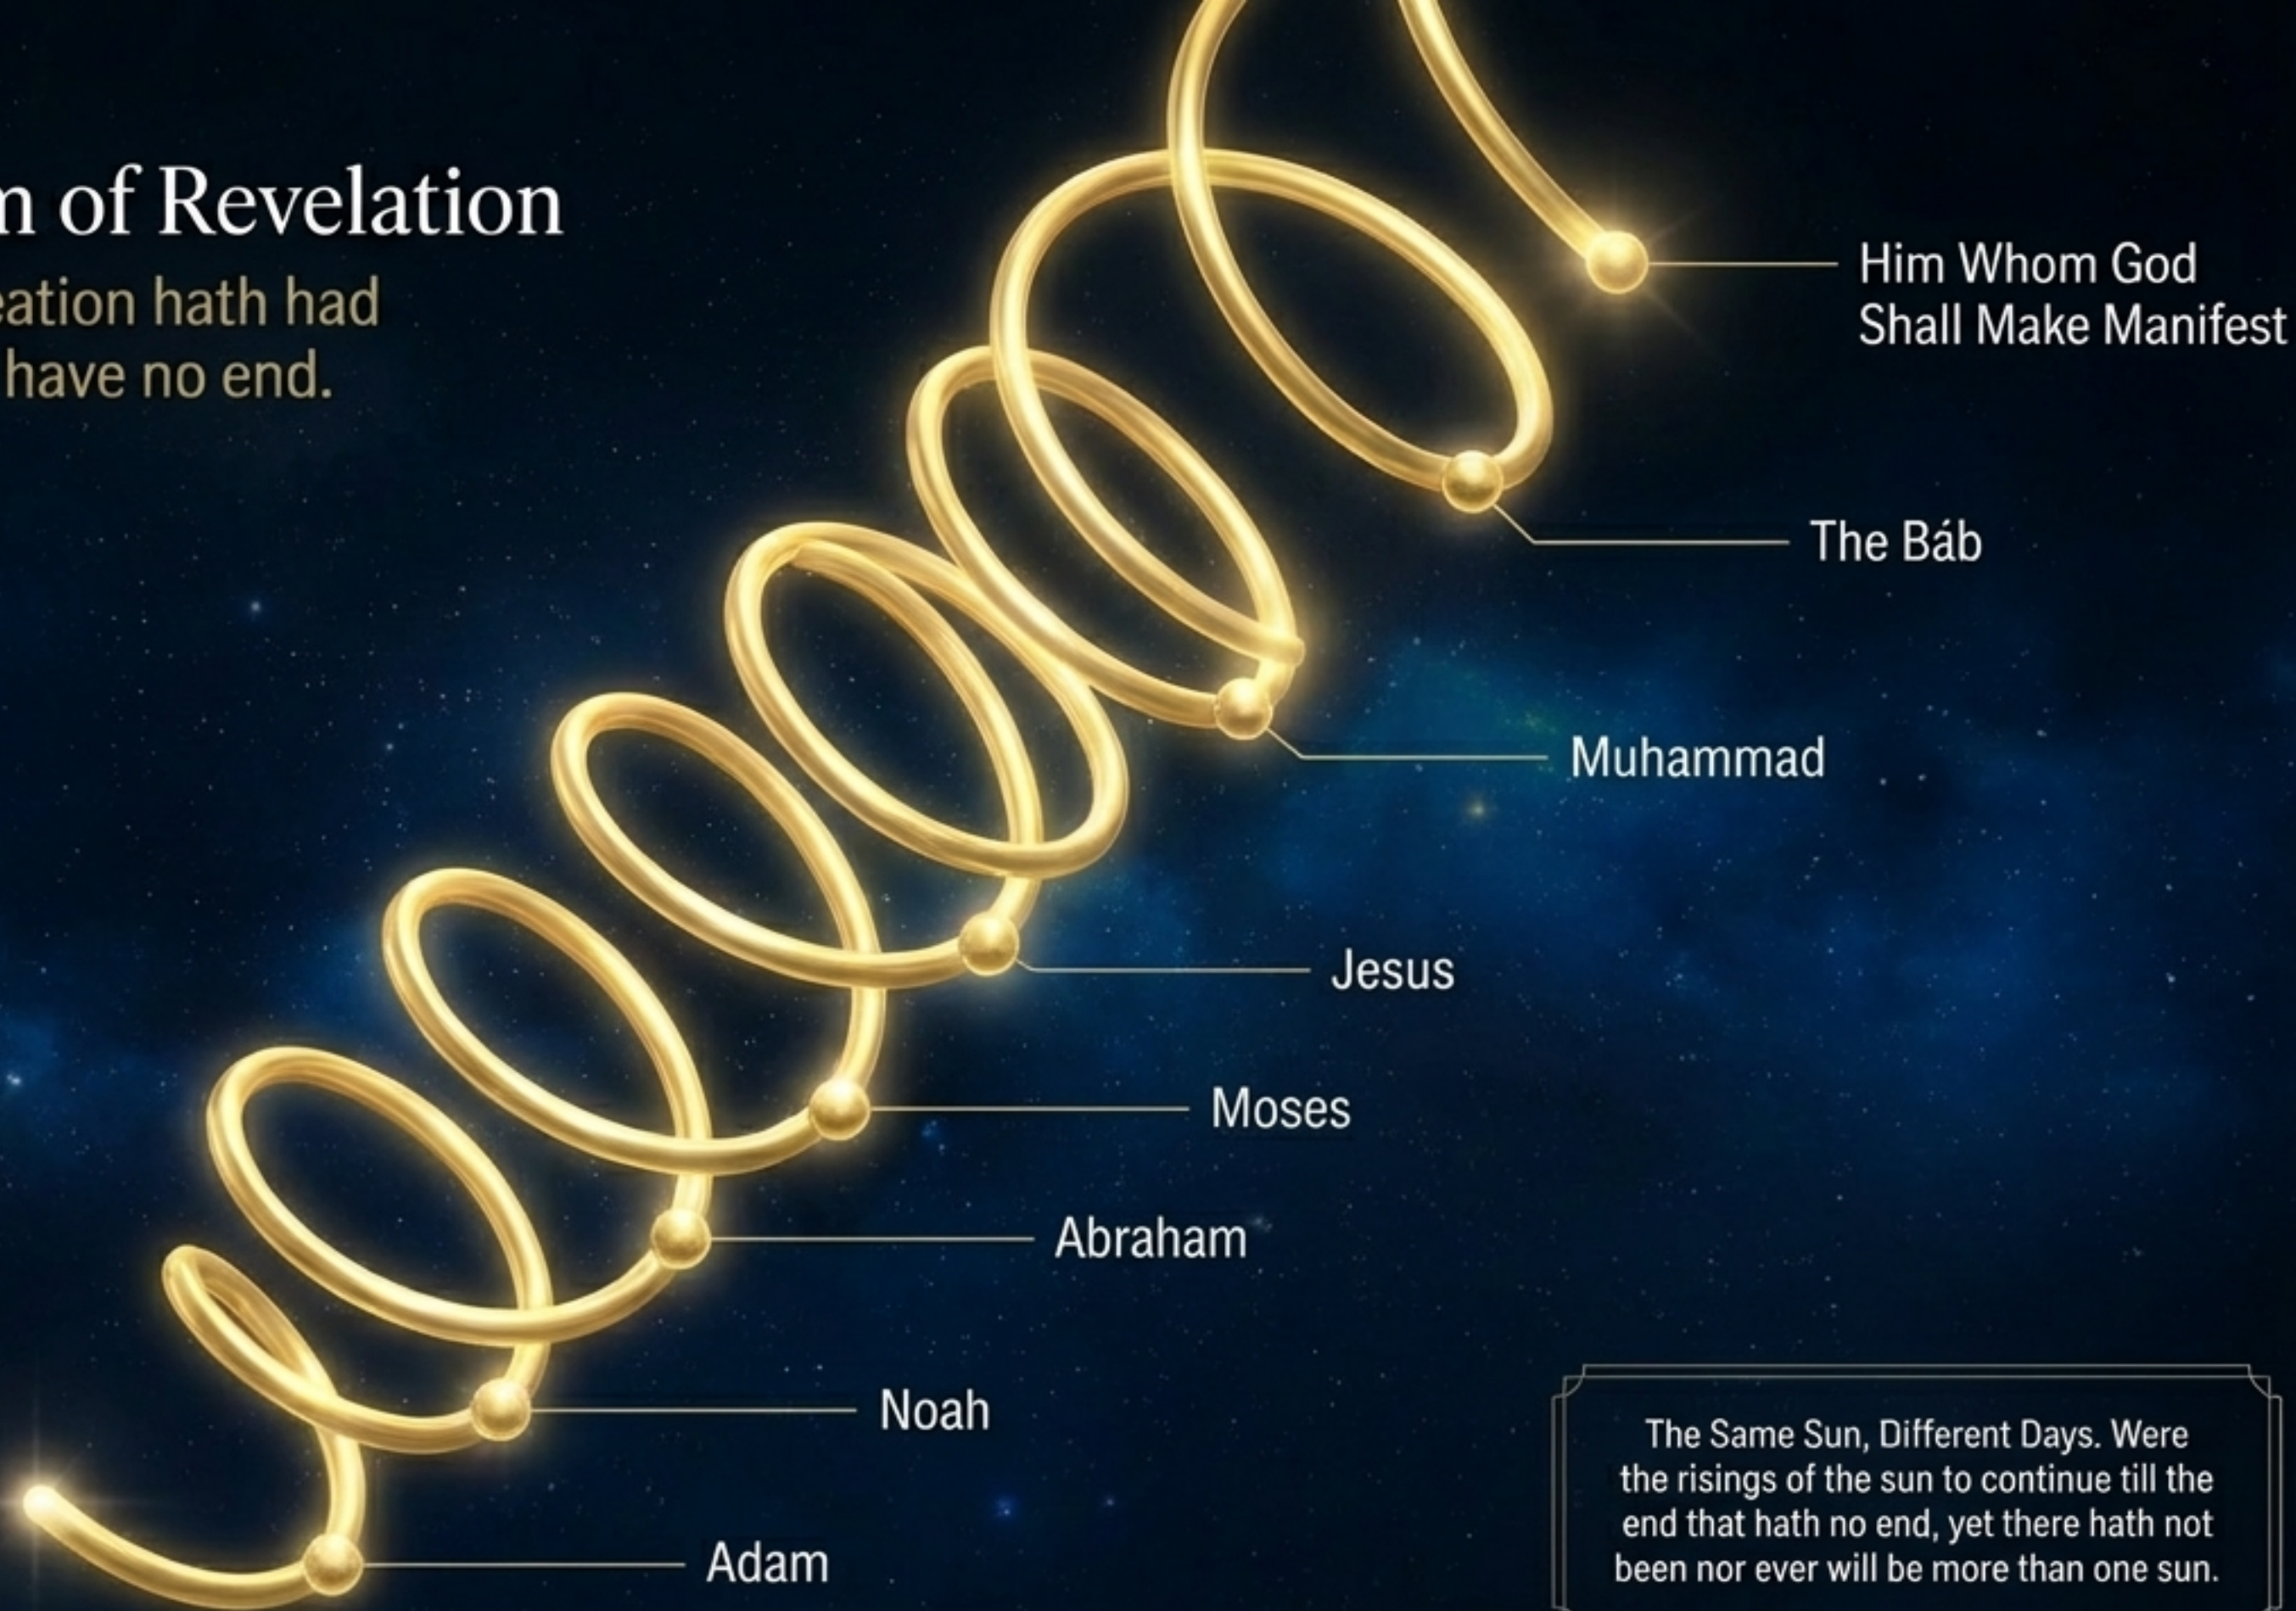

The Receptors: Humanity

The One true God may be compared unto
the sun and the believer unto a mirror.
The unbeliever may be likened unto a
stone... it cannot reflect the sun.

The Continuum of Revelation

The process of His creation hath had no beginning and can have no end.

The Same Sun, Different Days. Were the risings of the sun to continue till the end that hath no end, yet there hath not been nor ever will be more than one sun.

The Epistles to Power

The Illusion of Earthly Dominion

Lay aside your dominion...
Vain indeed is your dominion.

(Addressed to the Shahs of Persia)

The True Wealth

No wealth save in poverty
in all save God.

Earthly power is worth as much as the eye of a dead body
compared to the recognition of the Primal Will.

The Veils of Humanity

The Veil of Learning

Divines who pride themselves on knowledge but lack spiritual discernment.

The Veil of Power

Leaders who rely on authority and dominion rather than spiritual justice.

The Veil of Tradition

Adherents who follow past forms blindly (in the footsteps of others) without seeking the good-pleasure of God.

In every Dispensation a number of souls enter the fire by reason of their following in the footsteps of others.

The Evolution of Worship

That which is worthy of His Essence is to worship Him for His sake, without fear of fire, or hope of paradise.

The Ultimate Choice

Sea of Affirmation

- Belief with certitude
- Faithful obedience
- Detachment from earthly veils
- Fruits of the Paradise of God's good-pleasure

Sea of Negation

- Shutting oneself out
- Persisting in disbelief
- Pride in human learning
- The fire of affliction

The Ultimate Horizon

Him Whom God Shall
Make Manifest

- The Báb's entire mission and the Book of the Bayán were preparatory.
- Every law and teaching was designed to prepare humanity to recognize the next Manifestation.

The Bayán shall constitute God's unerring balance till the Day of Resurrection which is the Day of Him Whom God will make manifest.

Redefining the Day of Resurrection

The Misconception

Not a physical waking of graves
or the end of the physical world.

The Reality

The Spiritual Springtime.
Resurrection Day is simply the day the
new Manifestation reveals Himself.

"True resurrection from the sepulchers means to be quickened in
conformity with His Will, through the power of His utterance."

The Station of the Wronged One

Stripped of earthly provisions, isolated, and martyred at 30 years old, yet His Word rolled up the whole world of existence.

In the heart of a mountain is a fortress... the inmates of which are confined to two guards and four dogs.

The Practice of Purity

A Call to the Pure of Heart

True knowledge is not academic—it
is the recognition of the Divine in
the present moment through
absolute detachment.

Purge thine ear that thou mayest
hear no mention besides God...
and thy heart that it entertain no
wish save God.

The Architecture of Wisdom

To attain true wisdom is to detach from earthly veils, recognize the infinite continuity of the Divine, worship purely out of love, and remain in a state of constant readiness for the unfolding of Truth.
