

THE CELESTIAL CODEX

Decoding the Astrological Origins of the World's Saviours

ACUITY
Creating Pathways to Wisdom

A SHARED MYTHOLOGICAL BLUEPRINT

For millennia, isolated cultures across the ancient world worshipped saviours with identical life stories. To understand this impossibility, we must look away from the earth, and up toward the cosmos.

— Ethan James Farrell, Acuity Institute

THE MATHEMATICAL IMPOSSIBILITY OF COINCIDENCE

	Virgin Birth	Dec 25th	12 Disciples	Miracles	3 Days Dead	Resurrected
Horus (Egypt)						
Attis (Phrygia)						
Krishna (India)						
Dionysius (Greece)						
Mithra (Persia)						
Jesus (Bethlehem)						

Beyond timelines, these figures shared identical gestural names:
The Truth, The Light, God's Anointed Son, and The Alpha and Omega.

THE EARTHLY SON IS THE CELESTIAL SUN

These narratives are not human history. They are ancient astronomical ciphers mapping the annual journey of the sun.

LOCATING THE BIRTH OF THE SUN

Sirius (The Star in the East)

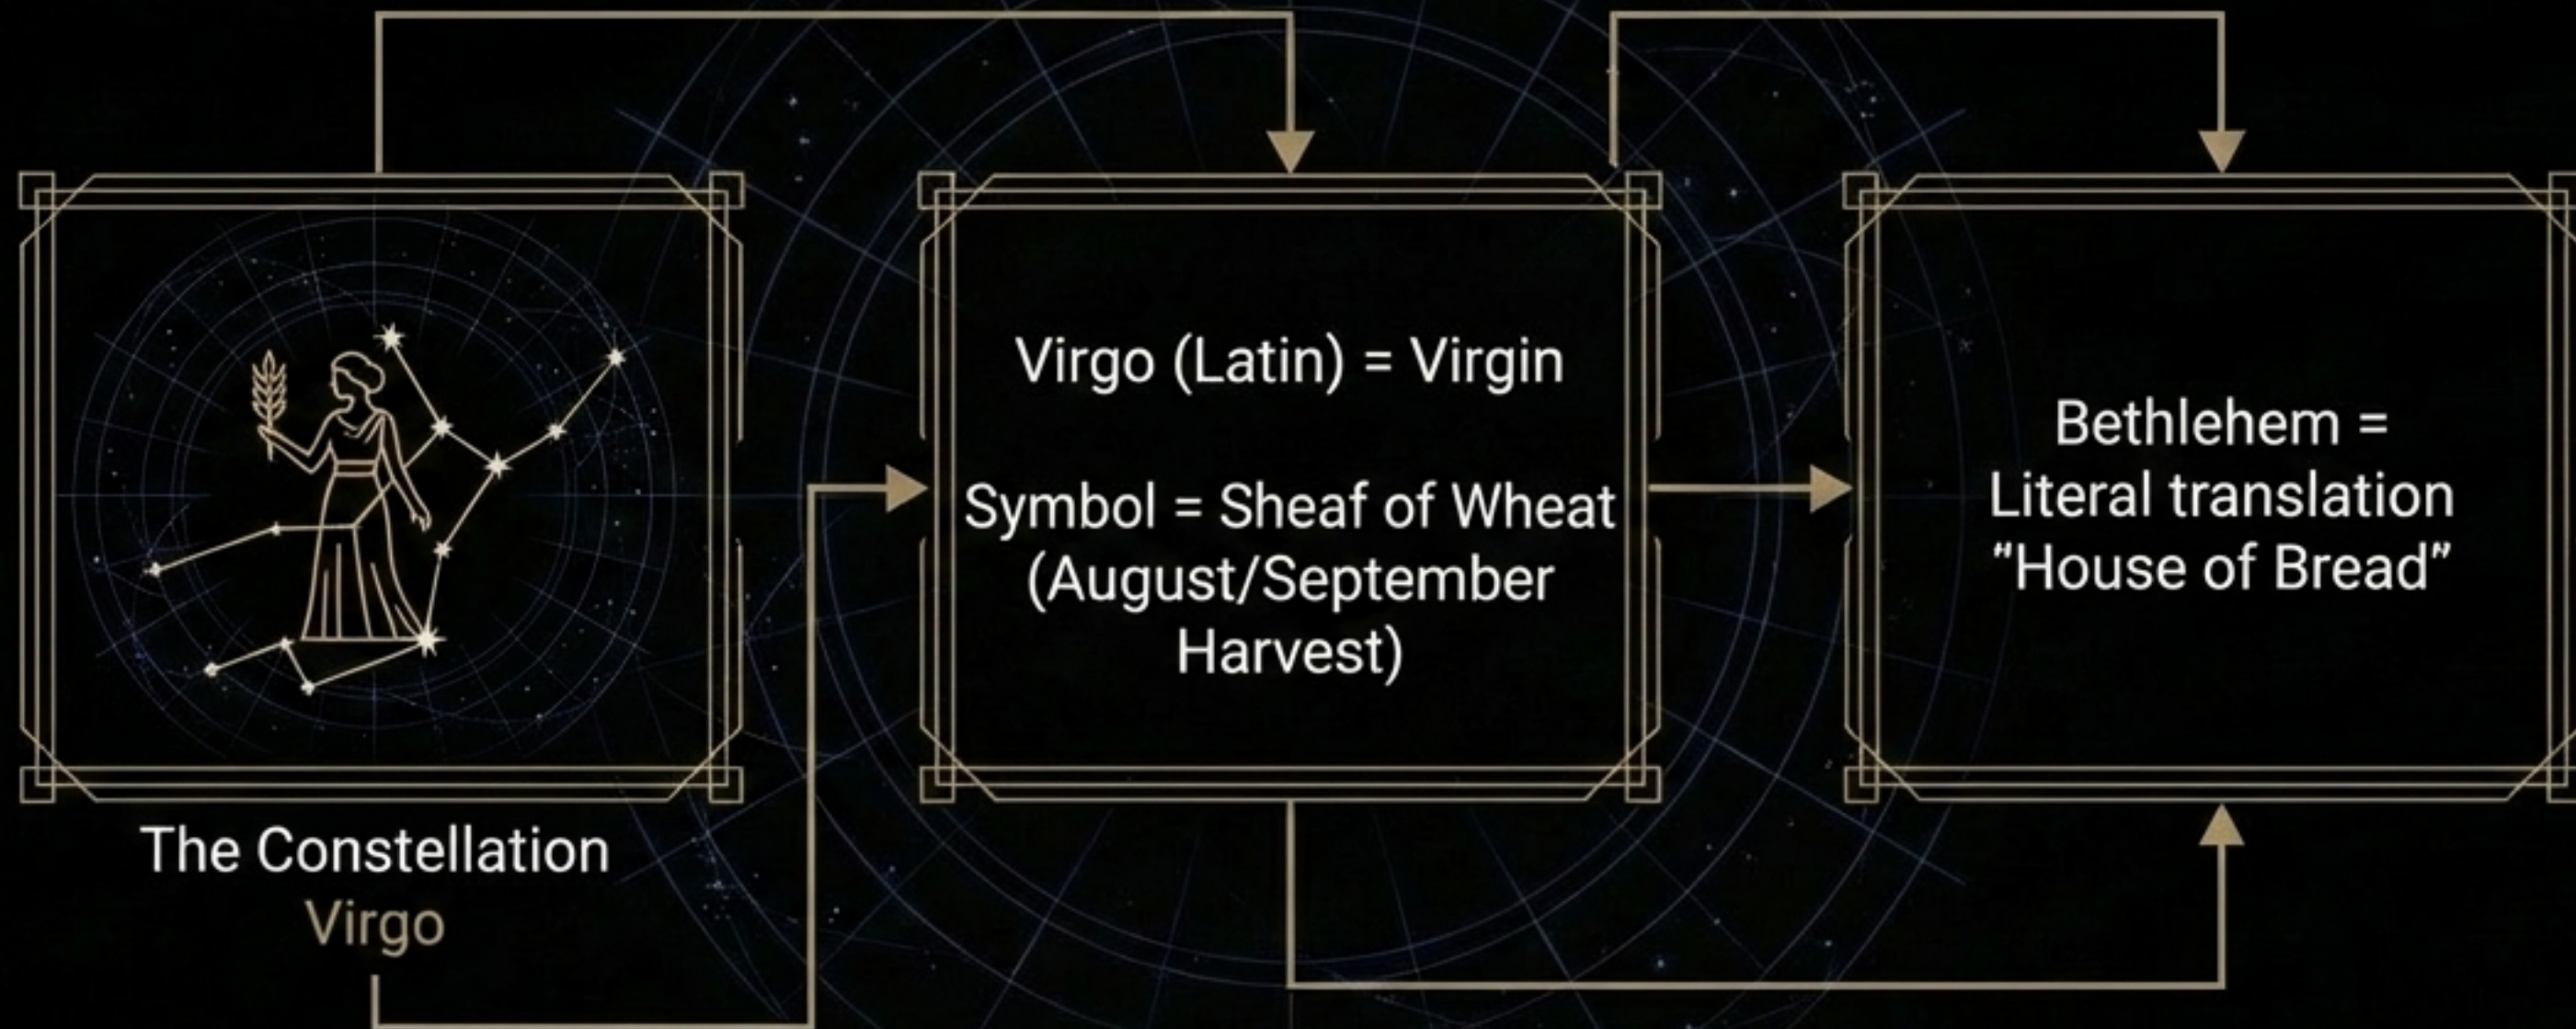

Orion's Belt (The Three Kings)

DECEMBER 25

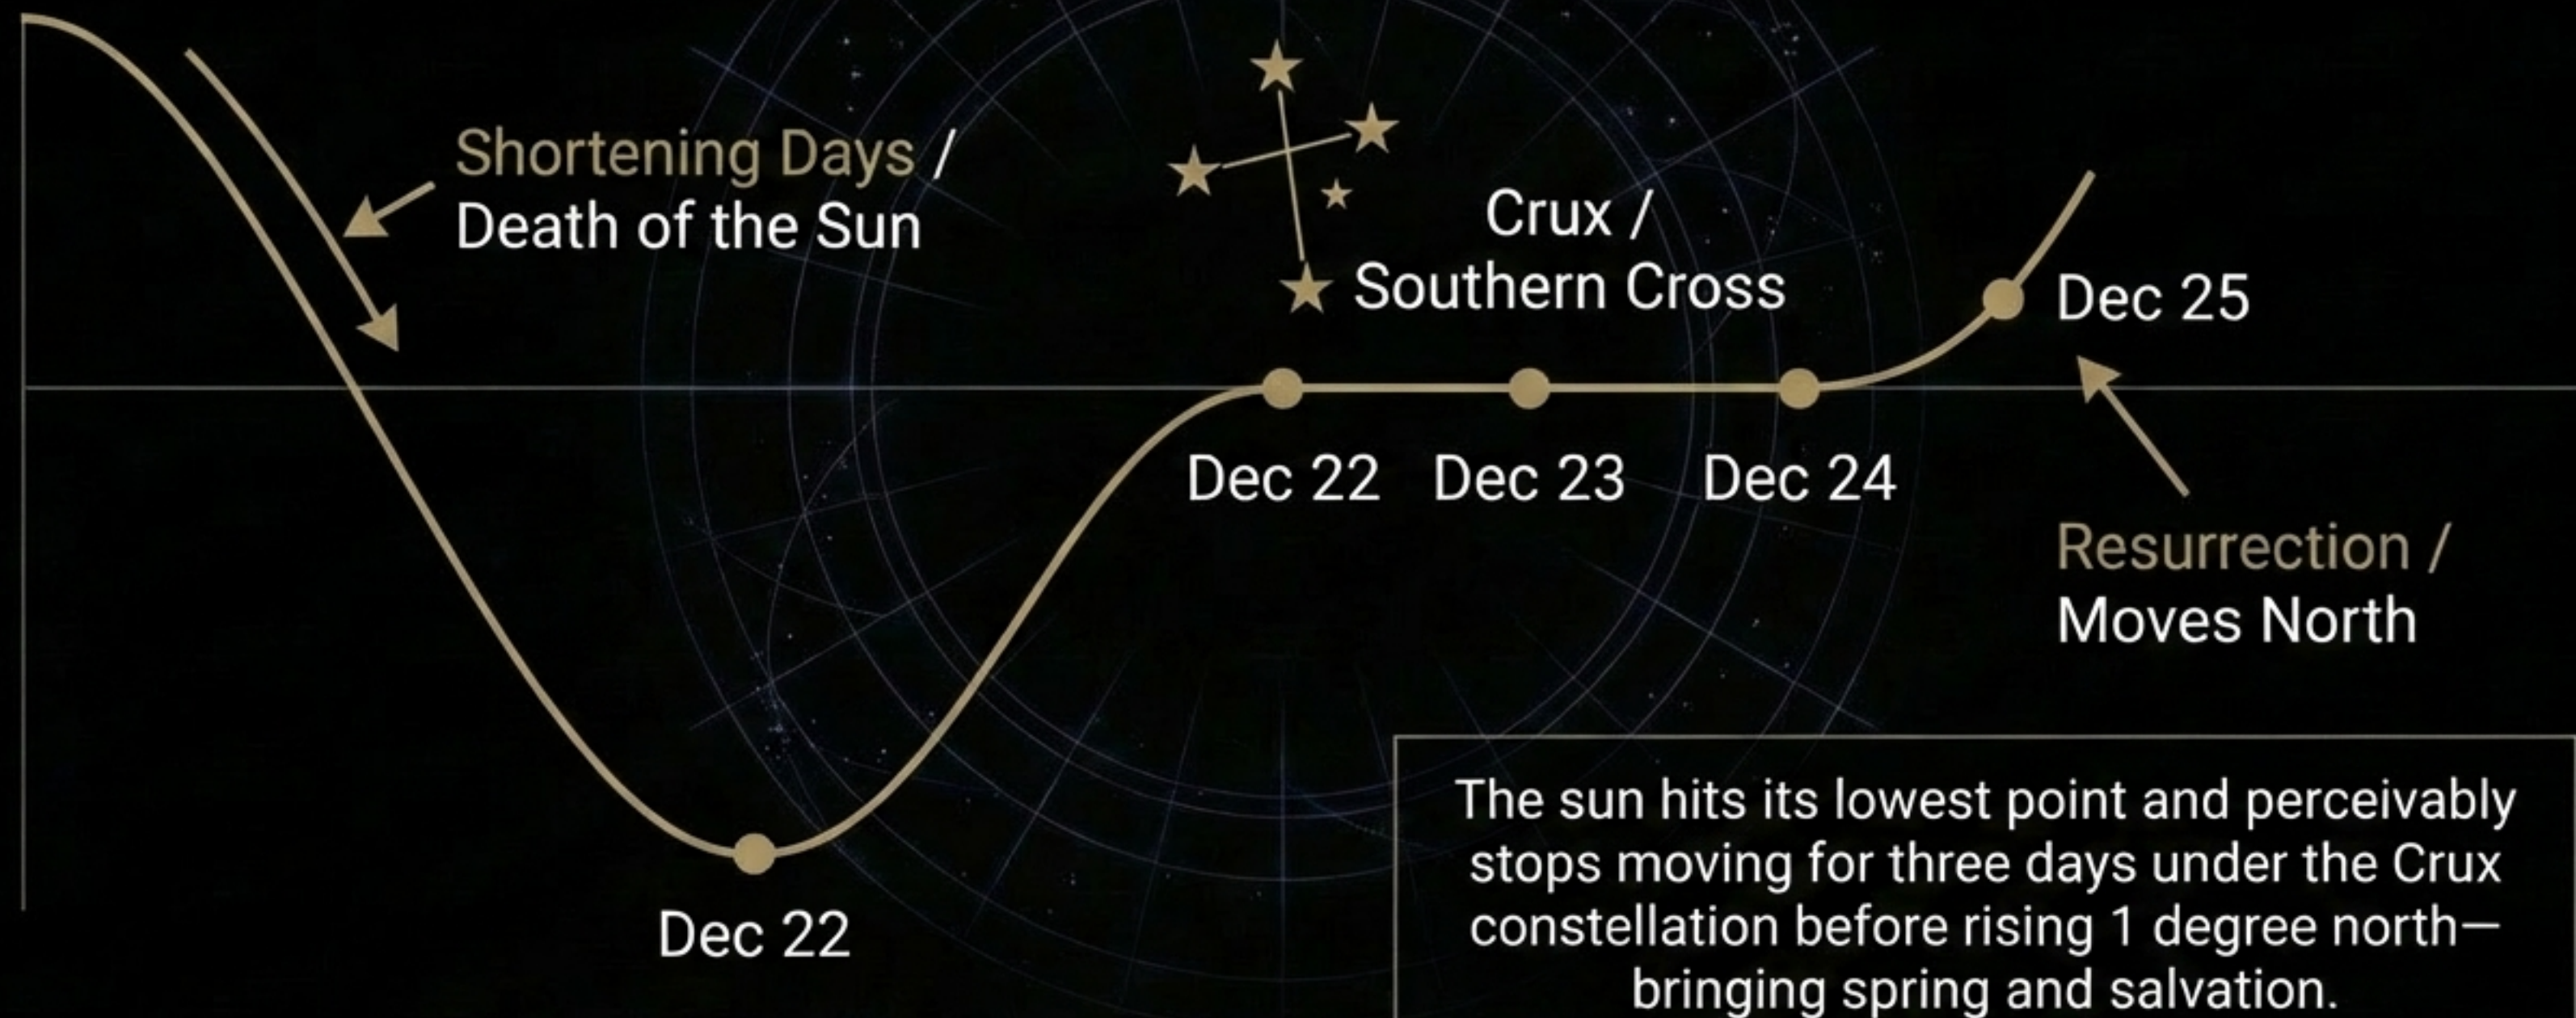

On December 24th, Sirius aligns with the three brightest stars of Orion to point to the exact location of the sunrise on December 25th.

BETHLEHEM IS A PLACE IN THE SKY

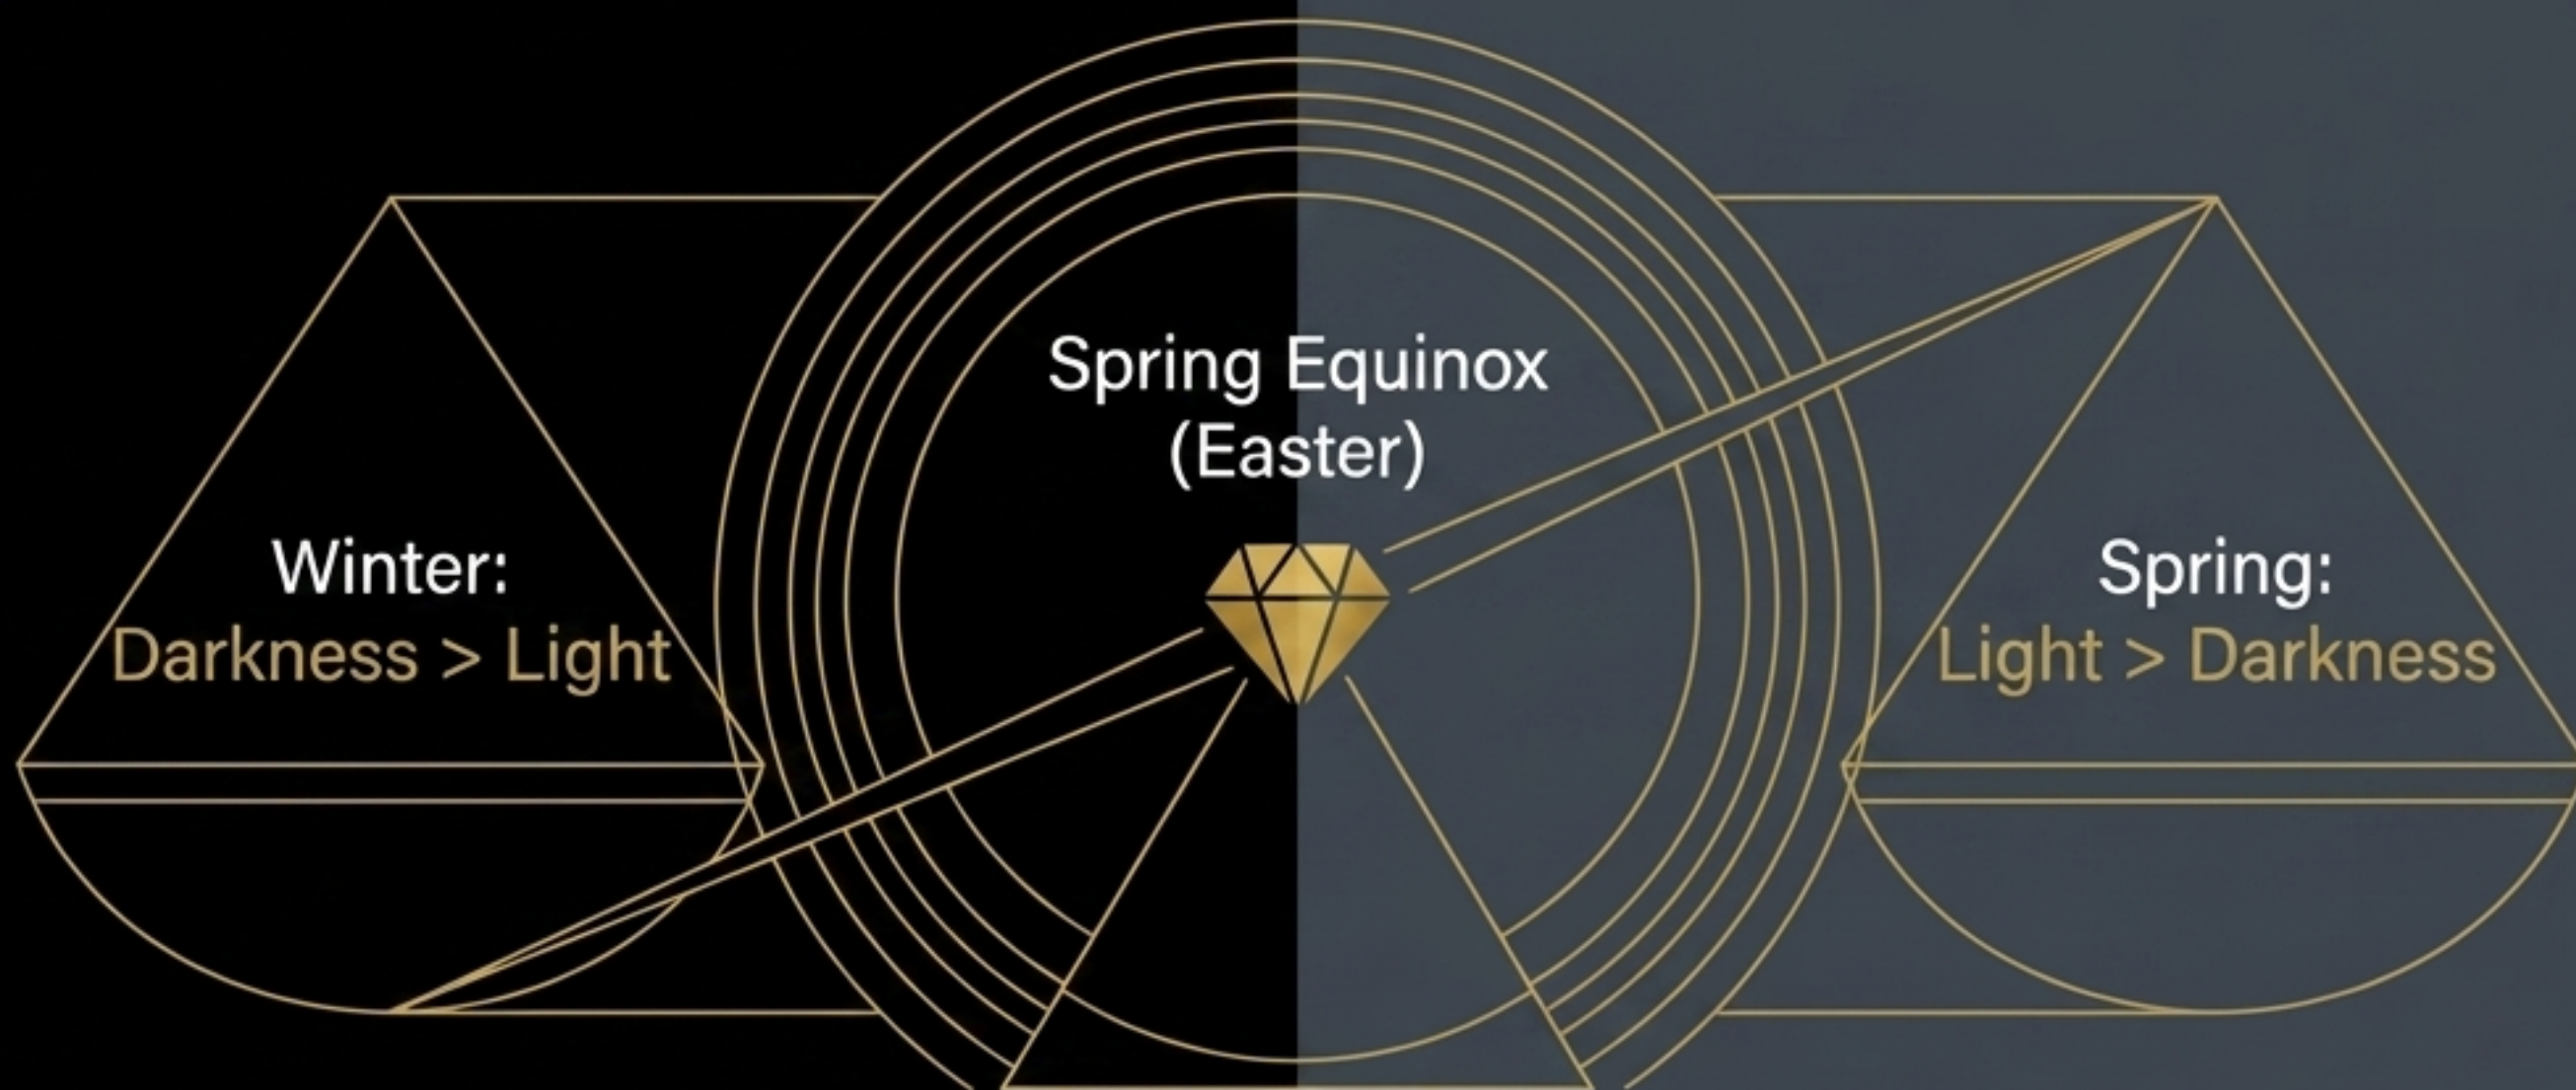

The Virgin Mary is the constellation Virgo. The House of Bread is the time of harvest. The narrative describes a cosmic event, not an earthly town.

THREE DAYS DEAD ON THE SOUTHERN CROSS

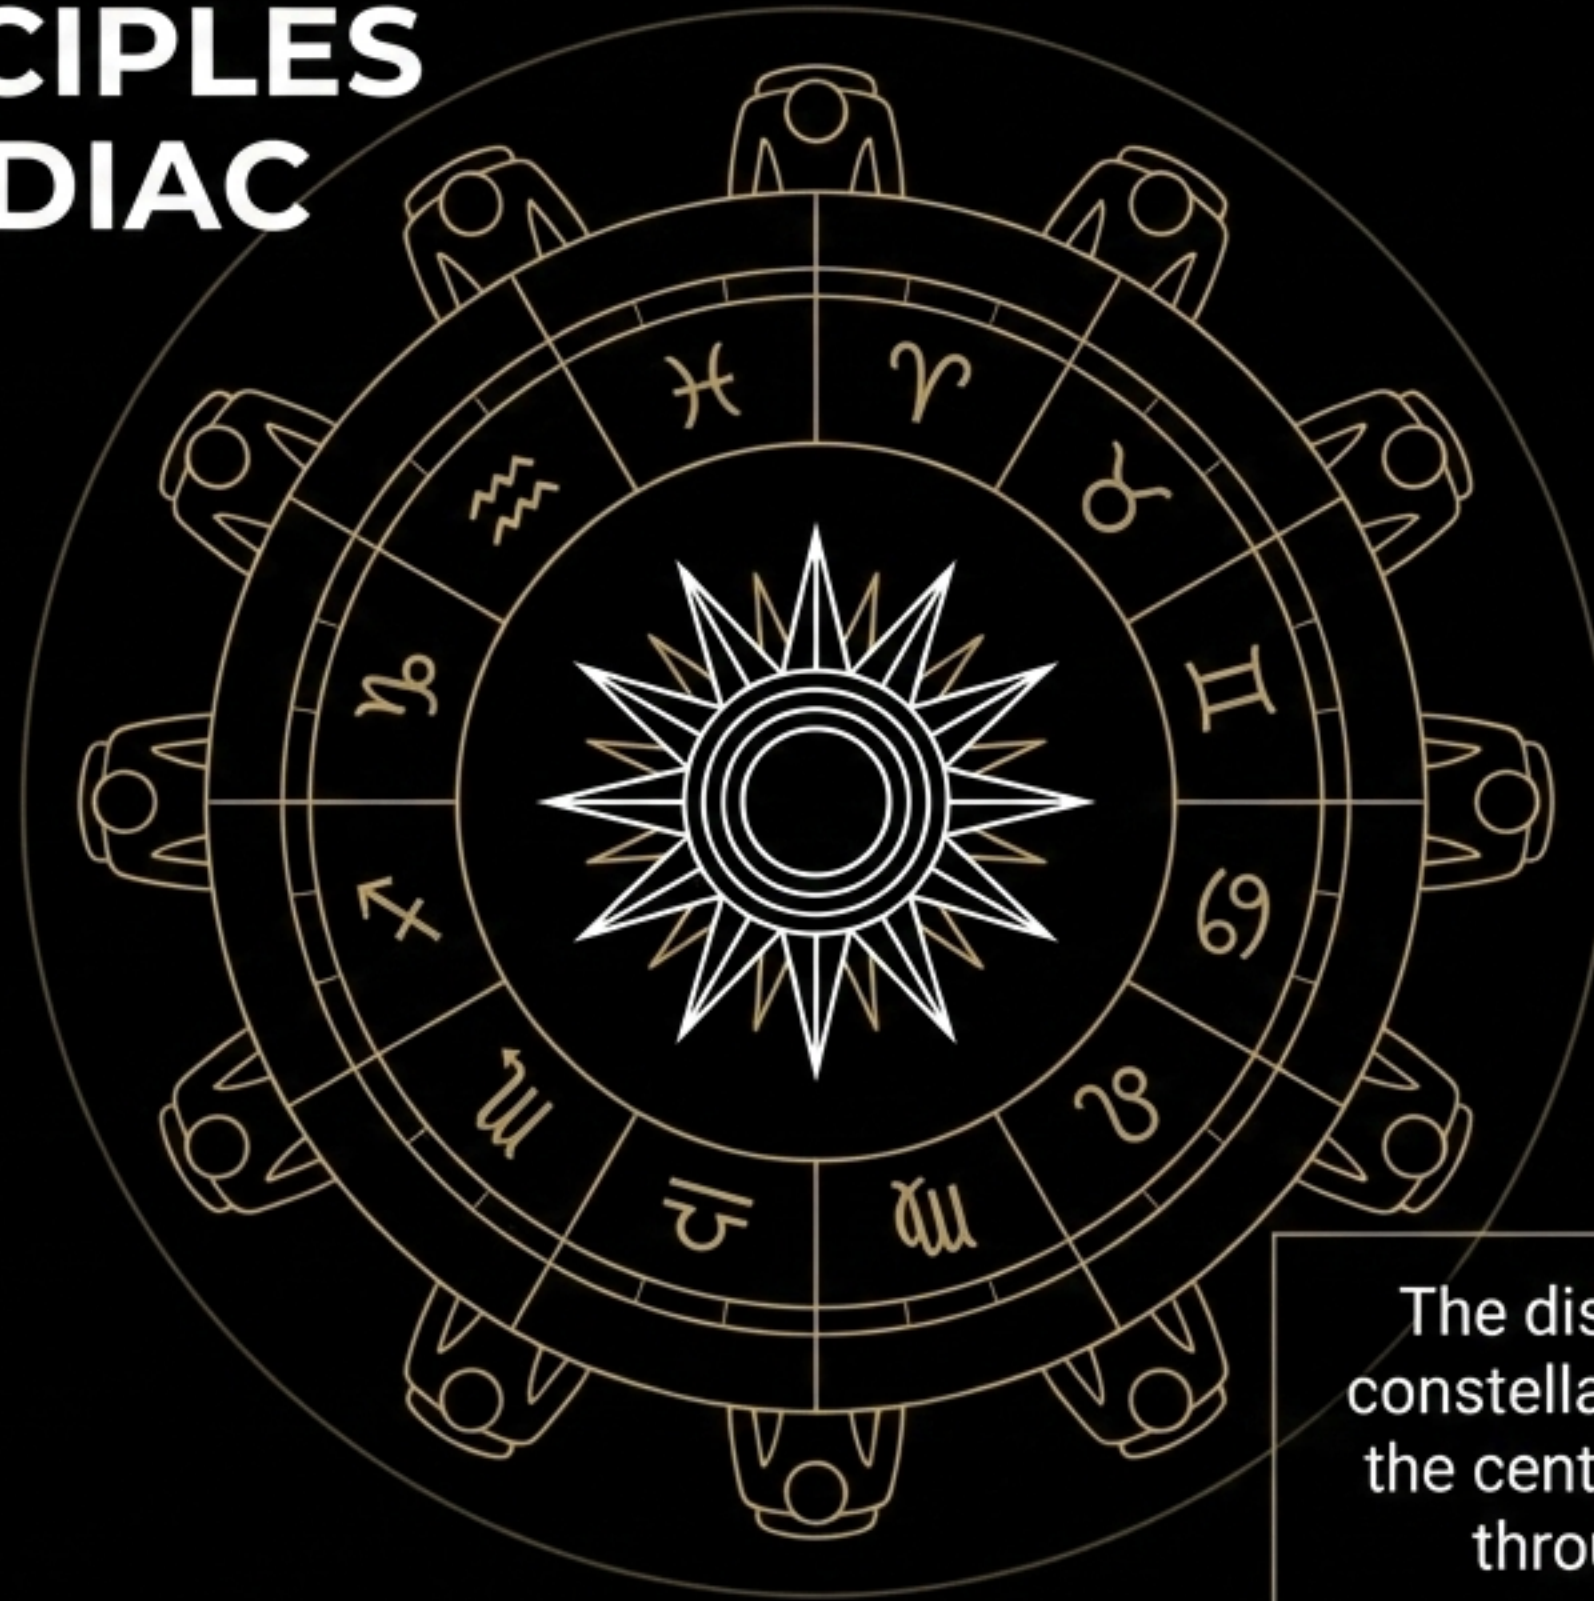

THE EQUINOX RESURRECTION

The resurrection of the sun is not celebrated until Easter (the Spring Equinox). This marks the exact moment the sun officially overpowers the darkness, and daytime becomes longer than night.

THE 12 DISCIPLES OF THE ZODIAC

The disciples are simply the 12 constellations of the zodiac, which the central Sun travels about with throughout the great year.

THE CROSS IS A CALENDAR

Stage 1
Pagan Zodiac Cross

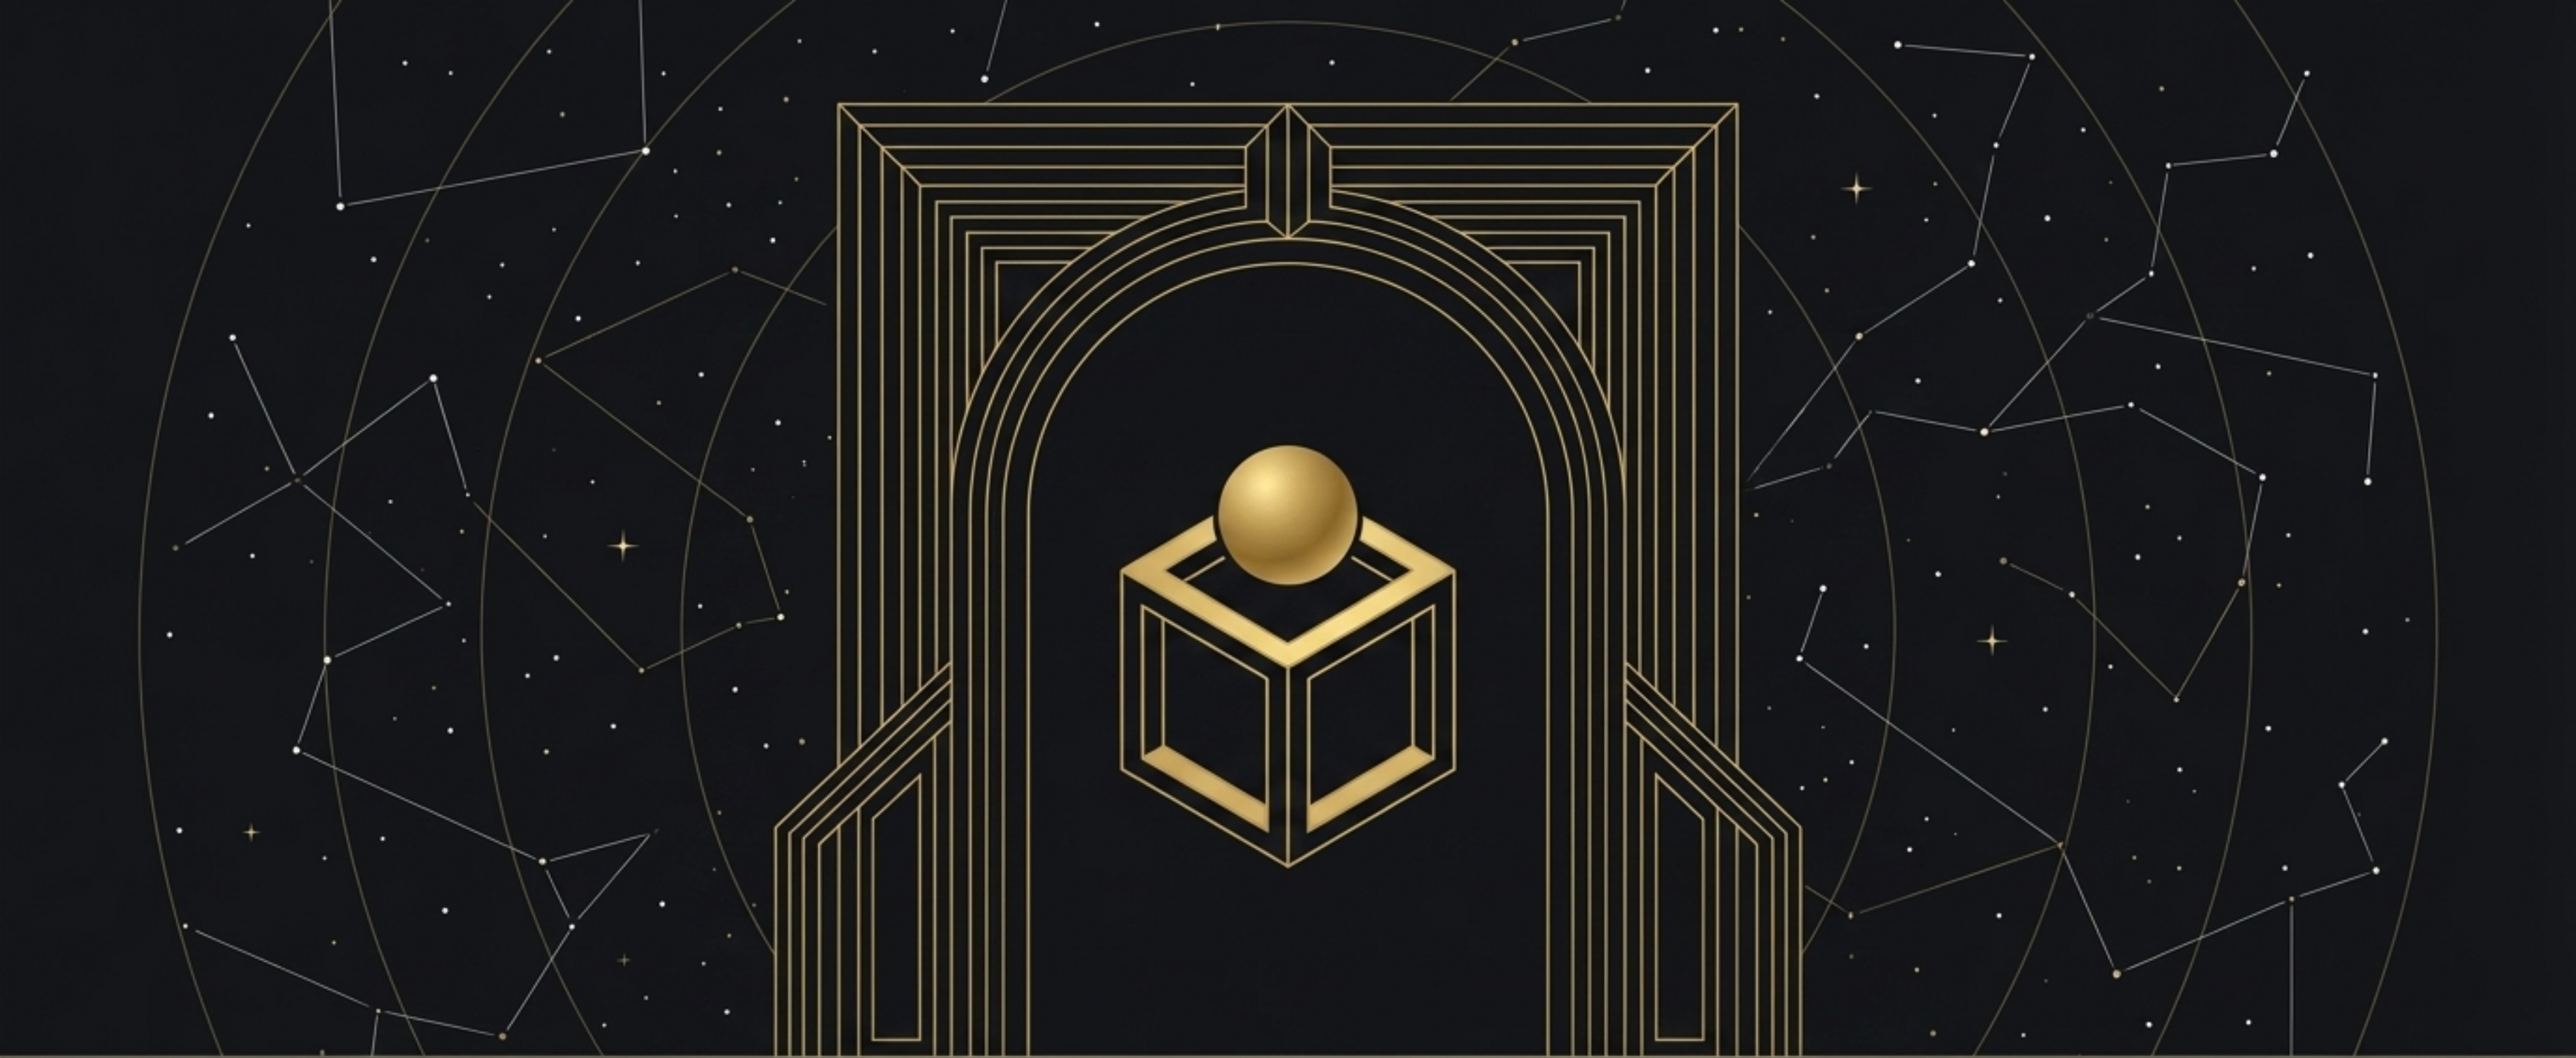

Stage 2
Early Occult Art synthesis

Stage 3
Isolated symbol

The figurative life of the Sun was a pagan spiritual tool to track celestial movements. The 'crown of thorns' are the rays of the risen Saviour, returning every morning to defend against the darkness.

CREATING PATHWAYS TO WISDOM

True enlightenment begins when we recognize the universal patterns connecting humanity to the cosmos.
